

MOBILE UNIT CT-SCAN

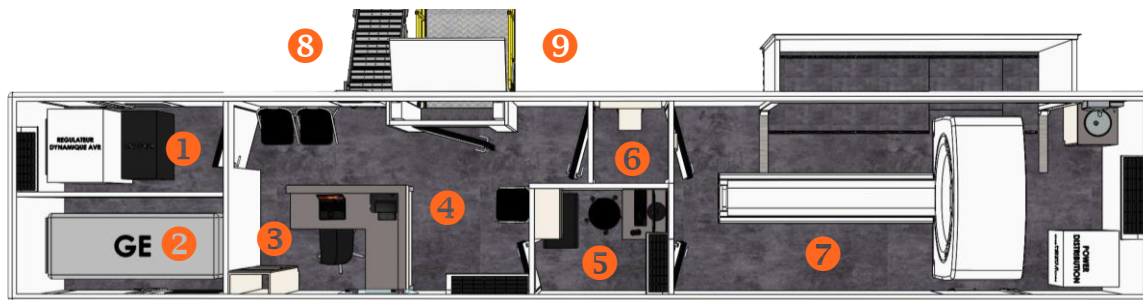

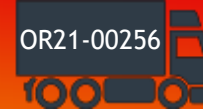

Your mobile CT-Scan unit

This mobile CT-Scan unit allows the most demanding professionals to perform their imaging exams in an ergonomic and comfortable working environment regardless of climatic conditions.

It is composed of a control room for the scanner manipulator and a large scanning room accessible to the stretchers thanks to the lift located at the right side of the unit. Equipped with a generator completely autonomous, it will be able to remain operational for several days for isolated populations in rural areas far from hospital facilities.

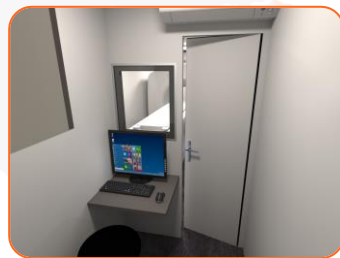

This mobile solution can be offered in different formats: container and semi-trailer.
