

MOBILE UNIT MAMMOGRAPHY

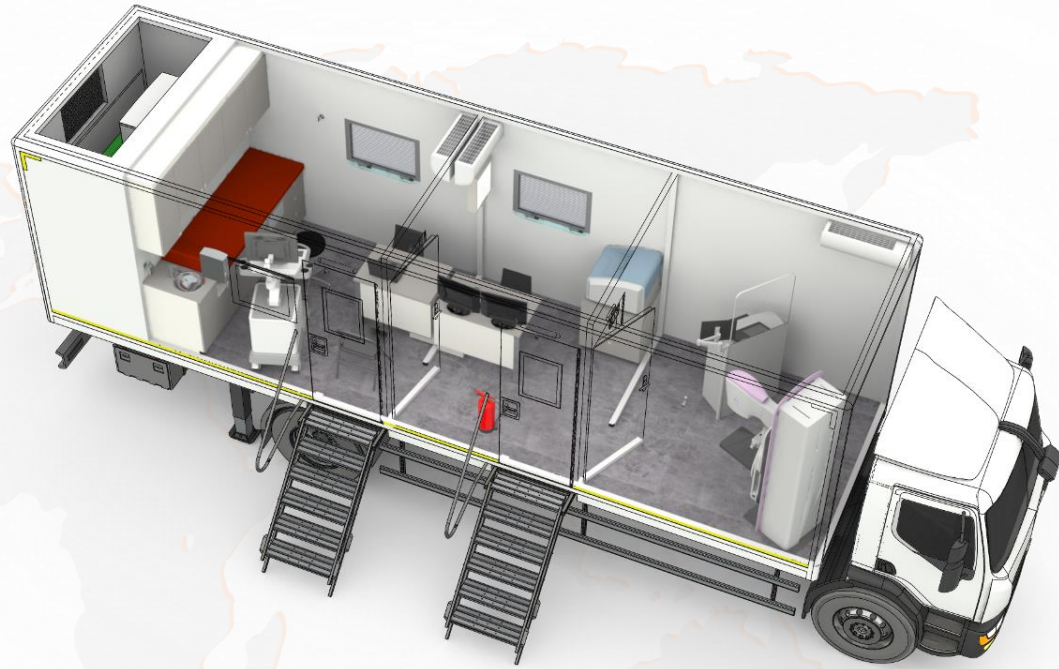

30263 

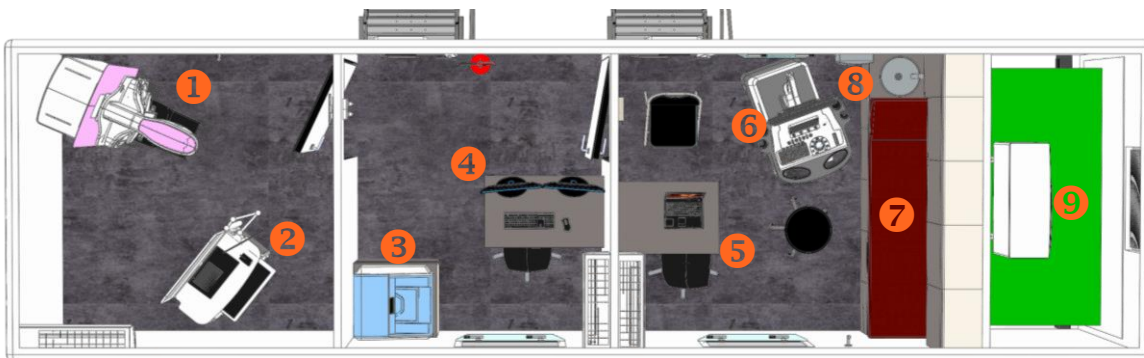

Your mobile mammography office

This mobile mammography unit allows the most demanding professionals to practice their medical specialties in an ergonomic and comfortable working environment regardless of the climatic conditions.

It is composed of an interpretation room, a mammography room and an examination room. It is also equipped with a generator for complete autonomy, allowing it to remain operational for several days, for isolated populations or in rural areas far from hospital facilities.

This mobile solution can be offered in different formats: container, straight truck and semi-trailer.
